Time to file will be extended to October 15th, provided the following are adhered to: (1) the box in this section is marked with an “X”, indicating a request for additional time to file; (2) the extension request is received on or before the original due date; (3) an estimated payment is included with this initial filing.

Amended Returns Check box on the front of the return and complete the return in its entirety. Provide all supporting documentation.

Blended Tax Rate (Line 9): If your tax rate changes during the year, the tax rate applied to Earned Income and Net Profits will be a blended rate based on the number of full months each rate applies. The blended tax rate calculator is available on our website, www.lctcb.org. The blended rate will be calculated by dividing each tax rate by the number of months you resided in LCTCB’s jurisdiction, multiplied by the number of months applicable. If you lived in LCTCB jurisdiction the entire year, divide by 12. The result of each applicable tax rate will be added to determine the blended rate to apply to the total Earned Income and Net Profits. The rate shall be calculated to five decimal places. The tax rate applicable for the greatest number of days during any month shall be the tax rate for the month. This calculation applies to:

- Tax rate change by taxing district
- Tax rate change caused by taxpayer moving between taxing districts with different rates if income reported on the annual return represents only income taxable at one rate, that rate applies, not a blended rate.

Lancaster County Tax Collection Bureau collects the earned income/net profits tax for the school districts and municipalities listed on the instructions sheet. If you were a resident of any of the municipalities or school districts for all or any portion of the tax year, you are required to file a written form with this tax bureau.
